

Valor Dimension™

Valor Dimension™ Regalia with Olympia Surround

Give your fireplace a new dimension with the Valor Dimension™ range of fires

The Baxi Bermuda BBU HE has been specifically designed to work with the Valor Dimension™ range of fires. The new Dimension™ range of electric fires from Valor uses cutting edge technology to create the world's most authentic 'real flame effect'. Redefining the market for fuel effect electric fires, the Valor Dimension™ range offers both traditional and contemporary styles, backed by the quality, reliability and peace of mind you would expect from the leading

name in home heating. It's a totally new way of enjoying the atmosphere that only a real fire can create – all at the press of a button.

Key features and benefits

- Unique, patented holographic fuel bed, with 'real flame effect'
- Traditional and contemporary fire front designs
- Running costs for the fire using the effect only are less than 2p per day
- Heat outputs of 1kW and 2kW
- No servicing required

A 'real flame effect' that makes a real statement

Nano

Nano's sleek stylish appeal and clean lines allow the innovative Dimension™ effect to take centre stage. The generous profile of the inset inlays perfectly frame the full depth 'real flame effect' to create a modern and sophisticated style.

Regalia

Designed with total attention to detail the Regalia has been created to reflect an original style Victorian arch fireplace. Its elegant contours make a statement that is neither fussy nor flamboyant and will form a natural centrepiece to any room.

Innova

Whether it's switched on or off the Innova fire makes a style statement. The elegant glass and silver design, combined with 'real flame effect' technology, creates an extraordinary focal point for any room.

Lyrica

The Lyrica design is inspired by traditional firedogs and incorporates them into a free-standing fret design. It creates an imposing feature that establishes a sense of tradition without intricate detailing.

Discover the beauty of Valor fires

GOLD

BLACK

CHROME

BLACK

BRASS

PEWTER

Dream

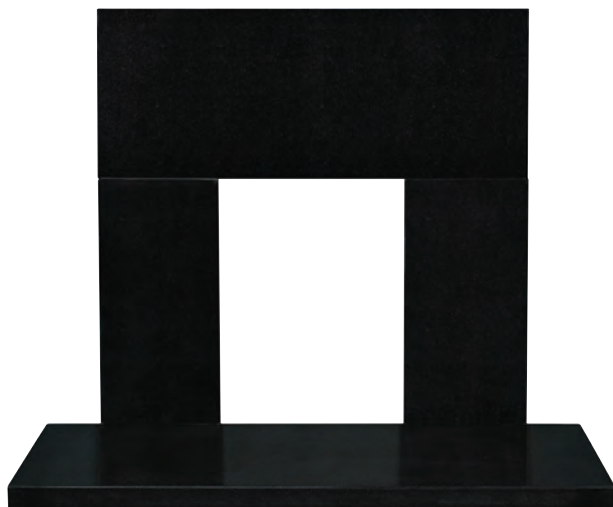

From its solid cast iron fascia with plating, to the faithful finishing and hand craftsmanship, Dream's high quality showcases timeless beauty along with Valor's cutting edge technology.

Classica

The Classica combines a traditional solid cast iron fascia with authentic hand finishing and honest materials, to create a design that is both modern and simple.

Solo-Pro Back Panel and Hearth

Match your choice of fire and surround with a back panel and hearth. The back panel fills the space between the fire and surround whilst the hearth is positioned on the floor to support the fire surround.

BLACK GRANITE

CREAM MICRO MARBLE

WHITE MICRO MARBLE

Revolutionary new Solo-Pro marble or granite solution on a lightweight frame provides a hearth and back panel that is 70% lighter and 80% stronger than bonded marble. It looks stunning and can be fitted simply and quickly without the need for expert help. It can expand for use with 405mm (16") or 450mm (18") fireplace openings and is available in black granite, cream or white micro marble.

Stylish surroundings for any home

Choose the perfect design to complement your choice of fire. Select a surround and match it to a back panel and hearth or find a surround that comes with back panel and hearth included. Rebated surrounds are available for properties where the chimney space cannot accommodate the BBU HE and the Valor Dimension™ fire engine. Please see page 13 for details.

MAHOGANY

Medway

The Medway provides the quality of a real wood veneer surround and hearth, while the fully assembled surround sets save time on installation. A 75mm (3") rebate ensures additional space is available for the fire rear where required.

Finishes also available in

MAHOGANY

Calista

The Calista comes in four easy to assemble pieces and the 150mm (6") rebated Oak version ensures additional space is available for the fire rear where required. The Calista is also supplied with fixing strips for Solo-Pro back panels and hearths.

Finishes also available in

MAPLE

Teviot

The Teviot provides the quality of a real wood veneer surround and hearth, while the fully assembled surround sets save time on installation. A 75mm (3") rebate ensures additional space is available for the fire rear where required.

Finishes also available in

Clarissa

Understated elegance in an Oak finish, the Clarissa comes in four pieces for ease of installation, and is supplied with fixing strips for Solo-Pro back panels and hearths.

Olympia

Olympia's classic design can be used in both period and modern interiors. It's a revolutionary lightweight marble solution that comes in cream micro marble veneer and three easy to assemble pieces.

Barcelona

A revolutionary lightweight granite solution that provides the height of contemporary style. The Barcelona comes in a natural granite veneer and three easy to assemble pieces. A 150mm (6") rebated version is available to provide additional space for the fire rear where required.
