What does this plan provide?

This plan provides maintenance and support for your heating equipment, as long as it is operated in a domestic environment. It is designed to help ensure your heating equipment continues to work correctly and to minimise the chances of mechanical and electrical breakdown. Note, while your boiler is still under its manufacturer’s guarantee, we will not approve onsite visits or annual services. Onsite visits and annual services will only be available once the manufacturer’s guarantee has expired.

What heating equipment is eligible for this plan?

Your heating equipment must be:

• owned by you and used for personal and non-business purposes only;

• in good working order and under 15 years old when you take out the plan; and

• located in the United Kingdom.

Your heating equipment cannot be:

• a commercial or industrial grade boiler/controls, such as one with more than 200,000 BTU/HR 58.6K input and/or output; or

• located on a boat or in a mobile home.

Is this plan right for you?

You must be at least 18 years old and resident in the United Kingdom.

Customer helpline

To ensure your heating equipment continues to work correctly and to optimise its performance, you can access our Maintenance & Support Services online at www.domesticandgeneral.com/boilercare.

Annual service

After the end of the manufacturer’s guarantee on the boiler, each year the manufacturer will contact you when the annual service is due to arrange for an authorised service technician to visit your home and perform an annual service on your heating equipment (your boiler, controls and if included the system); to ensure that it is working efficiently. In the event you do not hear anything within this time period, you can also arrange it by calling 0330 678 0917. The annual service will be carried out to statutory requirements in accordance with the manufacturer’s recommendations. The service technician will also offer you advice on how to use your heating equipment. Subsequent annual services will be carried out on or around the anniversary of the preceding annual service, subject to the availability of service technicians and your appointment preferences. Please note where possible annual service visits will be scheduled between April and September.

Ongoing support

In order to help ensure your heating equipment continues to function correctly, you can access online hints and tips for maintaining your heating equipment. In addition, you can call us on 0344 871 1545 throughout the duration of the plan term if there is a problem with the operation or functioning of your heating equipment or if your heating equipment fails the annual service. We will try to resolve the problem remotely, however if we are unable to resolve the problem, we will approve an onsite visit from an approved service technician to get your heating equipment working correctly again (see “Onsite visits”). Note, onsite repairs will not be approved for your boiler or its controls while the boiler is under its manufacturer’s guarantee.

Onsite visits

Where an onsite visit is approved, we will either organise the service technician visit or provide you with the details to allow you to organise the service technician visit at your convenience. Onsite visits will take place during normal working hours which are at least 9am to 5pm (except on public holidays) Monday to Friday on a date agreed with you. They may include repairs and further maintenance checks carried out on your heating equipment. We will pay for costs for call-out, labour and parts (including replacing parts of the system if this is included) as long as these are not covered by a manufacturer’s guarantee. You must use our approved service technicians. Please have your plan documentation to hand when the service technician arrives. In each year of your plan, the most we’ll pay in total for repairs we approve is £1,500, this is the repair limit.

If we approve an onsite visit but are unable to find a service technician, we’ll permit you to use your chosen service technician. You will have to pay them and claim the cost back from us. Please keep a copy of your invoice to send to us. If we permit you to use your chosen service technician and the proposed repair is estimated to cost more than the repair authority limit of £200.00, then you must ring the repair authority line on 0800 597 8580 for an authority number before work starts.

Safety message

If our service technician find that your heating equipment is unsafe (and, if relevant, it cannot be immediately repaired) they’ll label it and with your permission condemn it (and disconnect/isolate it) and it must not be used again until the fault has been corrected. This is extremely important for the safety of those at the property.
Note all the service technicians we use for the plan will be Gas Safe registered.

**Boiler replacements**
If after the end of the manufacturer’s guarantee on the boiler our approved service technician is not able to repair your boiler, or we decide that it is un economical for us to repair your boiler (because for example the repair would cost more than the lesser of (i) the repair limit or (ii) the price of a new boiler), we will arrange to replace your boiler with a new boiler up to a value of £750. Subject to availability and the price limit, the replacement will be of the same or similar technical specification.

If we cannot reasonably arrange a replacement, we will give you manufacturer credit or vouchers instead. The manufacturer credit or vouchers will be for the full retail price (from a manufacturer chosen by us) of a replacement boiler up to a value of £750. Manufacturer credit or vouchers will be valid for 12 months from the date of issue and will be sent electronically or posted to the last address you gave us.

Under this plan, we will not be responsible for any installation or delivery costs. We will also not pay for a replacement flue or any system upgrading work if this is needed for the new boiler.

If we arrange a replacement or alternatively give you manufacturer credit or vouchers, your plan will end immediately.

**Duration and renewal**
The initial plan period begins on the ‘start date’ and continues until the ‘renewal date’, as specified in your plan certificate (unless ended in accordance with these terms and conditions). Before your plan ends, we will contact you by post, telephone, email or SMS about renewing. Your renewal notice will show the new amount to pay and your renewal date. The fee payable may increase at renewal. If you pay by Direct Debit, your protection will automatically continue for another year with a new plan at each renewal, unless you inform us otherwise. Unless you have advised otherwise, the renewal fee will again be collected from your specified bank account, to ensure you are always protected. If you pay by any other means, you will need to make payment for your plan to continue. A cooling off period (lasting 14 days from renewal of the plan or the day on which you receive your renewal documentation, whichever is the later) applies at the renewal of your plan. We reserve the right not to offer you a renewal on your plan.

**Your responsibilities**
- All information you give must be true, factual and not misleading.
- Your heating equipment must have been installed and used in accordance with the manufacturer’s instructions.
- If your heating equipment breaks down or malfunctions, you must take reasonable steps to limit damage, e.g. stop using it if this is likely to cause further damage.
- You must pay the fees when they fall due.
- You must arrange any work required to ensure your heating equipment is accessible, compliant with all relevant safety standards and safe to work on (as determined by our service technician). We will not do any work where these standards are not met.
- You must ensure someone is home for when you have booked the annual service or onsite visit. If our service technician is not able to carry out the annual service/onsite visit because no one is home, you may be charged a call-out fee.

**General exclusions**
The following are excluded from the plan:
- Damage of any kind to the heating equipment.
- Damage during delivery, installation or transportation of the heating equipment by a third party not under our instruction.
- Replacement, recall or modification of the heating equipment (or any part) by a supplier or the manufacturer.
- Modifying or making a heating equipment comply with legislation or making it safely accessible.
- Any problem with the supply of electricity, gas, water, broadband or broadcast content.

- Repairs or modifications, where not approved by either us or the heating equipment manufacturer.
- The cost of replacing any consumables (such as external fuses, batteries, fuel).
- The cost of replacing any accessories (such as attachments, cables and cable joints, plugs, light covers, filters, removable parts, catalytic panels, external piping, starter connections and straps).
- Data loss or corruption, installing, modifying and upgrading software, the resolution of any software interface problems.
- For items with screens: repairs due to pixel failure where the number or location of pixels does not exceed the manufacturer’s acceptable limit, marks on the screen, or burned screens.

**Special exclusions**
In addition to the ‘General exclusions’ above, the plan does not provide care for the following:
- Any work arising from hard water scale deposits (i.e. calcium).
- Sludge or blockages (including carrying out a powerflush) or clearing, replacing or repairing magnetic filtration devices.
- Normal operation or adjustment of the heating equipment controls (except following a repair under this plan).
- Any water pressure adjustments on sealed systems, the clearing of airlocks or the balancing and venting of radiators (except where the system is protected by the plan).
- Work on anything not part of the heating equipment, for example inaccessible or non-visible pipework, energy management systems, unvented pressurised cylinders, convector heaters, kick space heaters, curved radiators (for bay windows etc), towel heaters/rails, underfloor heating, heat pumps, shower pumps, immersion heaters, solar panels, fuel lines to the boiler and the flue systems from the boiler, the cold water supply tank, its feed or outlet, taps, any pipework, controls or other parts associated with any of these items.

- The replacement of oil nozzles and igniters.
- Work on internet connected heating control equipment (such as Hive or Nest).
- Any installation or associated costs where we arrange a replacement (including costs for upgrades or system modifications).
Any part of your boiler and controls which directly supplies a swimming pool.
Repairing or replacing the flue including the flue terminal and or lining for any open flued appliances.

Paying your fees
If you pay the monthly fees (inclusive of all applicable taxes) by Direct Debit, you must make regular payments in accordance with the ‘Payments schedule’ set out in your plan documentation. If we are unable to collect a payment from your bank we may attempt to request payment again unless you advise us otherwise. When you have paid the monthly fees by Direct Debit for the number of consecutive months shown in the ‘Payments schedule’, if the initial term has not yet expired, no further payment will be taken for the remainder of the initial term. Before your plan ends, we will send you a renewal notice (see ‘Duration and renewal of your plan’ above).
If instead you choose to pay all the fees for the period in advance in one payment, you must pay this amount (inclusive of all applicable taxes) before the plan will start.
If you do not pay for your plan on time, it will be suspended from the due date. No Maintenance & Support Services will be provided past this date unless payment is received. We may use a collection agency to recover any amount owing to us.

Cancellation and ending of the plan
Your right to cancel
You will receive a full refund if you cancel the plan within the fourteen (14) day period from receipt of your documentation or from the plan start date, whichever is later (the cooling off period). If you cancel your plan after the cooling off period, then the following will apply:
• If you have not received a repair, we’ll refund the fee paid by you for the remaining full months of your plan. If you pay for your plan by Direct Debit, you will only receive a refund if you have already paid for any future months of your plan.
• If you have received a repair, no refund will be given and you will have to pay the cost of the repair. This will be capped at the plan fee (less any fees you have already paid in the current period).

Our right to cancel
If at any time your heating equipment is replaced, your plan will automatically end and no refund will be due (see ‘Replacements’ above).
We may cancel this plan where there is a valid reason for doing so by giving you at least 7 days’ written notice. Valid reasons include but are not limited to the following:
• where you fail to comply with certain conditions (see ‘Your responsibilities’ above);
• where you fail to pay for the plan, if applicable (see ‘Paying your fees’ above); or
• where you have used threatening or abusive behaviour or language towards our staff or suppliers.
If we cancel your plan using this provision, you will receive a pro rata refund of any fees paid for the remaining unexpired days of your plan.
